

BOARDERTECH

SKATEBOARDS & SNOWBOARDS

Business Expands in Downtown Moncton

Moncton – Here is another great example of the growing number of diversified businesses to be found downtown Moncton; Boardertech has expanded and is now established in its new location: 465 Main street.

Boardertech skateboards and snowboards, an existing downtown business has expanded its offering and storefront. Previously located in a smaller space on Main St. Boardertech has now moved into the old Subaru showroom. The new store layout and giant window displays are a refreshing sight to see while driving into main St. from Dieppe or the Champlain mall area.

Boardertech has been located in Downtown Moncton for 3 years and was previously located in Dieppe for 4 years. Specializing in skateboard and snowboard products they also carry a wide range of lifestyle and fashion products. This recent expansion has allowed Boardertech to increase its selection as well as offer women's products as they previously only had men's products available.

Boardertech is trying to do its part to help bring new life to Downtown Moncton by interacting with customers through weekly events at the new store and within downtown as well through the Moncton skate park. Also giving skateboarders and snowboarders a place to hang out as the new store features a lounge area where people can come relax and watch videos or just socialize with friends.
